

NATURALLY

Chorus *Naturally our world is changing,
Naturally our world's in need,
Naturally we must work together,
To save our world, naturally*

- 1. Oh why can't we read the sign,
everywhere, all around,
The truth is there to see,
We're losing the balance that nature provides**
- 2. With a little thought and a lot more care,
We can do so much to help our world
Find it's way again,
The future is ours if we tend to the earth.**
- 3. If not today, then when oh when
Will we learn from the wisdom of nature's own way.**
